

WP₂ PLAYLIST

JAZZ

Welcome to your WP Curated Playlist!

Vocal, instrumental, standards, modern - our Jazz selection features a great selection of tunes to show off the performance of our earbuds, while also giving a window into the genre. Atmosphere is the real calling card here, which we feel that the Audiobuds convey beautifully!

If you're not used to listening to detail in music, we'd wholeheartedly recommend reading our listening guide with its accompanying Playlist first. Hopefully this will help you on a journey, to hear more from your favourite music.

When it comes to all of our playlists, you may not like all of the tracks, you may disagree with their inclusion, we've picked popular tunes that show off the dynamic range of our earphones - we'd love to hear your feedback. Suggest more music for us, we're all on a journey of discovery with music and sharing what you've found is one of the great joys of being a fan of music!
